Re: Correction to Hearing Aid Compatibility Compliance Efforts Status Report #6 Submitted by the Alliance for Telecommunications Industry Solutions; *Section 68.4 of the Commission's Rules Governing Hearing Aid-Compatible Telephones*; *Petition for Waiver of Section 20.19(d)(2) of the Commission's Rules*, WT Docket No. 01-309

Dear Ms. Dortch:

On November 17, 2006, the Alliance for Telecommunications Industry Solutions ("ATIS") filed a status report in the above-referenced docket on the hearing aid compatibility compliance efforts of Leap Wireless International, Inc. ("Leap") and other members of the ATIS Incubator Solutions Program #4. Leap hereby submits a minor correction to its Status Report on Hearing Aid Compatible Wireless Devices, included in Attachment A of the ATIS filing.

Leap included in its list of compliant phone models the Motorola RAZR V3c, however the FCC ID for this model was identified incorrectly. The FCC ID for this model is "IHDT56FT1" (instead of IHDT56ET1).

If you have any questions regarding this submission, please contact the undersigned.

Respectfully submitted,

Laurie Itkin  
Director, Government Affairs
